

Workshop on “Health Informatics- Practical Uses in Hospitals”

Date: 11th January 2016

Venue: Seminar Room, 1st floor, JPN Apex Trauma Centre (JPNATC), AIIMS Delhi

About the workshop:

Applications of Information and Communication Technologies would disrupt the way healthcare is delivered and consumed particularly in rural India where 70% of people live. The aim of this workshop is to germinate an ecosystem of doctors, health informatics specialists, technologists and healthcare consumers for last mile healthcare delivery with the help of information and communication technologies.
